

RB 315 YX

Heavy, semi-flexible silicon carbide cloth

Product Benefits

- Backing cloth mix ensures running stability of grinding belts
- High stock removal rates in the coarse grit range
- Very constant surface quality in the fine grit range
- Universal use for dry or wet grinding (resistant to water, emulsion and oil)

Applications

- Surface grinding on stationary belt and wide belt grinding machines of coils and sheets out of stainless steel, titanium and other non-ferrous metals. Also recommended for sanding wood, plastic and composite materials
- Centreless grinding of tubes, rollers and cylinders on stationary belt grinding machines
- Edge grinding and chamfering of glass panels for the automotive and construction industries, hollow glass and ceramics

Product Structure

Type	31510
Grain	Silicon carbide
Bonding	Resin
Backing	YX-cloth
Coating	closed
Grit range	P 24, P 36 - P 320, P 400

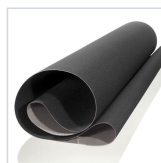

Forms of Delivery

Rolls

Abrasive belts

Wide belts

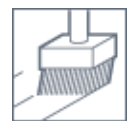

Discs

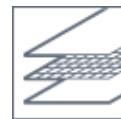

Metal

Wood

Lacquer

Composite

Glass and Ceramics

Stone

- Very suitable
