

RB 414 X-Procut

High-performance fibre discs for grinding stainless steel and high-alloyed steels

Product Benefits

- Higher stock removal rates achieved by using zirconia alumina grain
- Additional Procut coating for cool grinding
- Especially suitable for grinding stainless steel

Applications

- Deburring of workpieces with angle grinder
- Grinding welding seams
- Dressing of cast alloy parts
- Cleaning and rust removal

Product Structure

Type	41450
Grain	Zirconia alumina
Bonding	Resin, with active additives
Backing	Vulcan fibre
Coating	Closed
Grit range	+ 36 - + 120

Forms of Delivery

Fibre discs

Metal Wood Lacquer

Composite Glass and Ceramics Stone

- Very suitable
- Suitable
- Not suitable
