

VC 151-Longlife, VEL MULTIHOLE

Velour-backed aluminium oxide abrasive paper with active additives

Product Benefits

- Low clogging with sanding dust due to semi-open coating and additional coating with additives
- Longer tool life compared to conventional extraction methods
- Better surface quality: cooling flow of air over the whole surface of the disc reduces sanding temperature
- Hermes MULTIHOLE discs can be used universally on all conventional backing pads and orbital sanders with extraction holes
- Reduced problems with sanding dust on sanded surfaces

Applications

- Grinding of aluminium components like attachments for car bodies, decorative strips, panels, motorbike tanks
- Sanding of lacquered parts for car, ships and planes
- Sanding of glass fibre-reinforced plastic parts like: wind power propellers, yachts, motor boats, private planes and gliders, vehicle superstructures
- Sanding of wooden parts mainly softwood

Product Structure

Type	15179
Grain	Aluminium oxide
Bonding	Resin, coated with additives
Backing	C-paper, velour-backed
Coating	open
Grit range	P 60 - P 240, P 320 - P 500

Forms of Delivery

Rolls

Strips

Discs
