

VC 151-Longlife, VEL

Velour-backed aluminium oxide abrasive paper with active additives

Product Benefits

- Low clogging with sanding dust due to semi-open coating and additional coating with additives
- Flexible, strong paper guarantees very good adaptability when grinding contours and curved surfaces

Applications

- Grinding of aluminium components like attachments for car bodies, decorative strips, panels, motorbike tanks
- Sanding of lacquered parts for car, ships and planes
- Sanding of glass fibre-reinforced plastic parts like: wind power propellers, yachts, motor boats, private planes and gliders, vehicle superstructures
- Sanding of wooden parts mainly softwood

Product Structure

Type	15177
Grain	Aluminium oxide
Bonding	Resin, with active additives
Backing	C-weight paper, velour-backed
Coating	Open
Grit range	P 60 - P 240, P 320 - P 500

Forms of Delivery

Strips

Triangulars

Discs

Metal

Wood

Lacquer

Composite

Glass and Ceramics

Stone
