

webrax-AN 701 50

Abrasive web, reinforced with cloth

Product Benefits

- Compact, intensive grinding Abrasive web
- Reduced loading when compared to conventional abrasive discs
- Excellent velcro adhesion when used with Hermes VEL-Backing pad-X, special
- No cut through when finishing car body parts
- The cloth reinforcement increases occupational safety during grinding
- Aluminum oxide grain generates a satin-effect stainless steel surfaces
- Can be used universally for dry and wet grinding (resistant to water, emulsion and oil)

Applications

- For fine grinding of metal surfaces
- Light deburring tasks on stainless steel components
- Grinding out small faults in metalworking and mould-making or on tanks and machine housings in the food and chemical industries

Product Structure

Type	70150
Grain	Aluminum oxide (+ 800 Silicon carbide)
Bonding	Resin
Backing	Abrasive web, reinforced with cloth
Grit range	+ 80 - + 100, + 180, + 280, + 800

Forms of Delivery

Abrasive belts

Wide belts

Discs

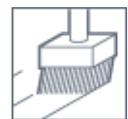

Fastlock System

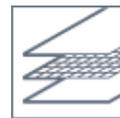

Metal

Wood

Lacquer

Composite

Glass and Ceramics

Stone

- Very suitable
- Suitable
- Not suitable
